Question 1: What is the recommended minimum following distance in ideal conditions?

- A. 2 seconds
- B. 3 seconds
- C. 4 seconds
- D. 5 seconds

Correct Answer: C. 4 seconds

Explanation:

The four-second rule is a standard safety guideline that allows drivers enough time to react if the vehicle ahead suddenly brakes. In ideal conditions, maintaining a four-second gap helps prevent rear-end collisions. In adverse weather or poor road conditions, increasing this distance is advisable.

Question 2: When approaching a school bus with flashing red lights, what should you do?

- A. Slow down and pass cautiously
- B. Stop and wait until the lights are turned off
- C. Proceed at the same speed, but stay alert
- D. Only stop if children are visible

Correct Answer: B. Stop and wait until the lights are turned off

Explanation:

Traffic laws universally require drivers to stop when a school bus has flashing red lights and extended stop sign. This is to ensure children can board or disembark safely. Failing to stop can result in hefty fines and legal penalties.

Question 3: How should you respond if you encounter fog while driving?

- A. Turn on high-beam headlights for better visibility
- B. Use your low-beam headlights and reduce speed

C. Drive at normal speed, relying on your mirrors

D. Turn off your headlights to avoid glare

Correct Answer: B. Use your low-beam headlights and reduce speed

Explanation:

High-beam lights can reflect off fog, impairing visibility further. Low-beam headlights help illuminate the road without causing glare. Reducing speed allows more reaction time and safer driving conditions.
