- To analyze the relationship between mobile money usage and business growth indicators.
- To identify challenges faced by small business owners in using mobile money services.

Research Questions:

- What is the level of mobile money utilization among small businesses?
- How does mobile money usage influence revenue and customer base growth?
- What barriers hinder effective use of mobile money services?

Methodology:

A cross-sectional survey will be conducted among small business owners in Kampala. Stratified sampling will ensure representation across sectors. Data will be collected through structured questionnaires and follow-up interviews, with data analysis performed using SPSS for quantitative data and thematic analysis for qualitative insights.

Ethical Considerations:

Participants will provide informed consent, ensuring confidentiality and voluntary participation. Ethical approval will be sought from Makerere University's research ethics committee.
